PROVISIONAL ELECTION OF SPECIES

COMMISSIONER FOR PATENTS
ALEXANDRIA, VA 22313-1450

SIR:

In response to the Election of Species requirement dated October 19, 2004, the Applicants provisionally elect with traverse the species of Group I corresponding to Claims 19, 22-25, 32-35, 37-40, 58-68, and 70-97 as readable on the provisionally elected species.

The Applicants respectfully traverse the election requirement for several reasons.

First, the outstanding Official Action merely includes the conclusory statement that "[t]his application contains claims directed to ... patentably distinct species ..." without stating any basis whatsoever in support of such a finding. This is in violation of MPEP §816, which states:

The particular reasons relied on by the examiner for holding the inventions as claimed are either independent or distinct should be concisely stated. A mere statement of conclusion is inadequate. The reasons upon which the conclusion is based should be given. ...

In the absence of any annunciated basis, it is respectfully submitted that the PTO clearly has not carried forward its burden of proof to establish distinctness.

Application Serial No.: 09/639,946
Response to Election of Species Requirement
dated October 19, 2004

Secondly, MPEP § 806.04(f) requires:

Claims to be restricted to different species must be mutually
exclusive. ..

The outstanding Official Action fails to address in any way whether the pending claims recite mutually
exclusive characteristics and this failure provides a further basis for traversing the election requirement.

Finally, MPEP § 803 states:

... If the search and examination of an entire application can be
made without serious burden, the Examiner must examine it on the
merits, even though it includes claims to distinct or independent
inventions.

The claims of the present invention would appear to be part of an overlapping search area.

Accordingly, the Applicants also respectfully traverse the outstanding Election requirement on the
grounds that a search and examination of the entire application would not place a *serious* burden on the
Examiner.

Therefore, it is respectfully requested that the requirement to elect a single species be
withdrawn, and that a full examination on the merits of Claims 19, 22-25, 32-35, 37-40, 58-68, and 70-
99 be conducted.

Respectfully Submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
